RE: Stadium at Rentschler Field site, East Hartford, Connecticut

APPROVAL OF WORK PLAN

The Permitting, Enforcement & Remediation Division of the Bureau of Water Management ("the Department") has reviewed the letter plan regarding "Comments on Stadium at Rentschler Field, East Hartford, Airport/Klondike Area, Pratt & Whitney, East Hartford Connecticut". The letter is dated October 12, 2000 and was prepared on behalf of United Technologies Corporation by Loureiro Engineering Associates. The letter is hereinafter referred to as "the plan".

The plan proposes supplemental soil investigations on an approximate 3 acre portion of the Pratt & Whitney, 400 Main St., East Hartford, Connecticut property which is proposed to be transferred to the State of Connecticut as part of the Stadium at Rentschler Field project. The plan was submitted to address the Department's May 24, 2000 comments on a scope of work prepared by Marin Environmental, Inc. on behalf of the Connecticut Office of Policy and Management which pertain to this portion of the project area.

The plan is hereby approved.

Nothing in this approval shall affect the Commissioner's authority to institute any proceeding, or take any action to prevent or abate pollution, to recover costs and natural resource damages, and to impose penalties for violations of law. If at any time the Commissioner determines that the approved actions have not fully characterized the extent and degree of pollution or have not successfully abated or prevented pollution, the Commissioner may institute any proceeding, or take any action to require further investigation or further action to prevent or abate pollution. This approval relates only to pollution or contamination identified in the above referenced plan.

In addition, nothing in this approval shall relieve any person of his or her obligations under applicable federal, state, and local law.

If you have any questions, please contact Richard Hathaway of my staff at (860) 424-3780.
